

Offer to sponsors

On behalf of the PyCon PL 2011 Organisation Committee we are pleased to invite you to cooperate in organising this year's edition. Therefore, I would like you to get familiarised with our offer to sponsors.

When a few years ago first plans to organise the Polish edition of the well-known and valued PyCon appeared, we did not think about its future. We were rather focused to render it as successful as possible. That is why we appreciate the trust that the participants and sponsors of the first three editions have put in us. Thanks to them the Polish PyCon has become a fixed event in the Python calendar.

The success we have managed to achieve so far motivates us to further, even harder work on the organisation of the fourth conference edition. We want the PyCon PL 2011 to be better than the previous events. In order to meet the new expectations, we have introduced some novelties: first of all we have extended the event by one day and have increased the limit of participants. Additionally, we intend to invite more guests from abroad whose presentations will take place in a special session held in English. However, we are aware that the further development requires strong, solid partners and sponsors.

I believe that your share in supporting PyCon PL 2011 will be beneficial to both parties and at the same time the conference participants will benefit from our cooperation. Therefore, I invite you to get familiarised with the sponsorship terms we offer this year.

Filip Kłębczyk
Chief organiser of the conference
PyCon PL 2011

The basic information about PyCon PL 2011

PyCon PL 2011 is the Polish edition of the well and valued conference devoted to the Python language. Once again the organiser of the conference is the Silesian branch of the Polish Linux User Group Association (PLUG) as well as the Students Linux and Free Software Research Circle (SKNLIWO) at the Silesian University of Technology.

Time and venue

PyCon PL 2011 will be held from 22nd to 25th of September at the Hotel Przedwiośnie (<http://www.hotelprzedwiosnie.pl/>) located in the Holy Cross Mountains, which is not far from the main road no. 7 – the main route between Warsaw and Cracow.

Objective and mission

The objective of the conference is to raise the participants' qualifications, integration of the Python Programmers' Community in Poland, popularisation of new applications of the language as well as spreading good programming practice and exchange of experiences.

Target group

The conference is addressed to all Python programmers. Thanks to the presentations on a wide range of topics, the conference being held mostly over holidays and reasonable fees PyCon PL opens its doors to both the experienced specialists and Python enthusiasts who just burnish their skills (including students and other learners).

Subject area

The subject area embraces the widely understood programming and the use of Python. Starting from its day-to-day applications through frameworks for creating web applications and finishing with the use of Python for research purposes.
